

Technical sheet for abroad

To ensure the best conditions to show the plays of "Asdika' al duma", we recommend a closed dark hall with/or without seatings but with carpets on which the spectators can be seated. There is no need for a stage.

Stage space:

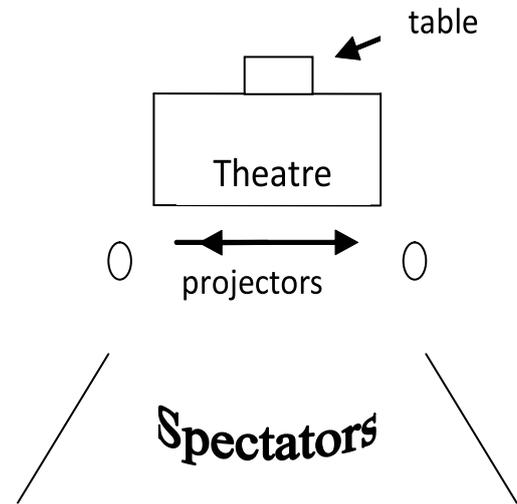

Our theatre is 2m50 high,
2m10 wide and 1m deep.

The minimum stage space required is:

Height : 3m
Width : 4m
Depth : 5m

Time frame:

Setting: 1 hour
Play: 55 minutes
Dismantling: 30 minutes

Technical needs:

1 electrical connection of 220 V – 12/15 A

1 table

1 chair

1 mixer with three entries (2 microphones and one monitor/speaker)

1 monitor/speaker (amplifier included in the speaker) or a sound system that can be activated from behind the scene.

Number of spectators:

In order to ensure a good interaction between the public and the puppets or the actors, we recommend that the total number of audience does not exceed 100 spectators.

Seating:

If the venue is not a theatre type then the spectators may be seated in different levels:

- On the floor, using a carpet or mat.
- On small chairs.
- On bigger chairs.

Free assistance:

If it is difficult to access the hall (stairs, long corridors etc.), help to carry our things would be very much appreciated during 10 minutes at arrival and at departure of the team.
